

## Answer 1:

Name- Akshat Agrawal.

Course- MCA '23'

U. Roll NO - 2001018

Subject Name- Java Programming

Subject Code- T14C 202.

Ans 1)

```
import java.util.Scanner
```

```
class FileTest {
```

```
    public static void main (String []  
                                args)
```

```
    throws IOException
```

```
    {  
        PrintWriter pw = new PrintWriter  
                                ("three.txt");
```

```
        BufferedReader br = new BufferedReader (new FileReader  
                                                    ("one.txt"));
```

```
        BufferedReader br1 = new BufferedReader (new FileReader  
                                                    ("two.txt"));
```

```
        String line = br.readLine();
```

```
        String line1 = br1.readLine();
```

```
        while (line != null && line1 != null) {
```

```
            pw.println (line);
```

```
            pw.println (line1);
```

```
            line = br.readLine();
```

```
            line1 = br1.readLine(); }  
    }
```

```
    pw.flush();
```

```
    br.close();
```

```
    pw.close();
```

```
    }  
    }  
    System.out.println ("Merged one.txt & two.txt into three.txt");
```
